

Henry M. Lyons House

4871 Bancroft Drive

Lyons House, January, 1986. The shrubbery has been cleared away and holes broken in the foundation to prepare for the move.

This simple craftsman residence looks much as it did when built in 1935. It is a fine example of many of the homes constructed in the La Mesa area as the community expanded eastward in the 1920s and 1930s. The Lyons family lived here continuously until 1977. In 1986, the house was relocated slightly as a result of an agreement between CalTrans, the City, and the owner.
