

# James Morrison House

## 8415 Grant Avenue

---

This 2-½-story residence, built in 1910, was built as the winter home of James Morrison. Morrison, a Canadian, established a series of successful sawmills with his brothers in the Pacific Northwest. The builder of the Morrison House, Horace Greeley Upp, was a close friend of the Morrises and a well-known La Mesa contractor at the time. In 1985, the exterior was restored and the interior was converted to an office building as part of an adaptive reuse project.
